

# Guacamole Login

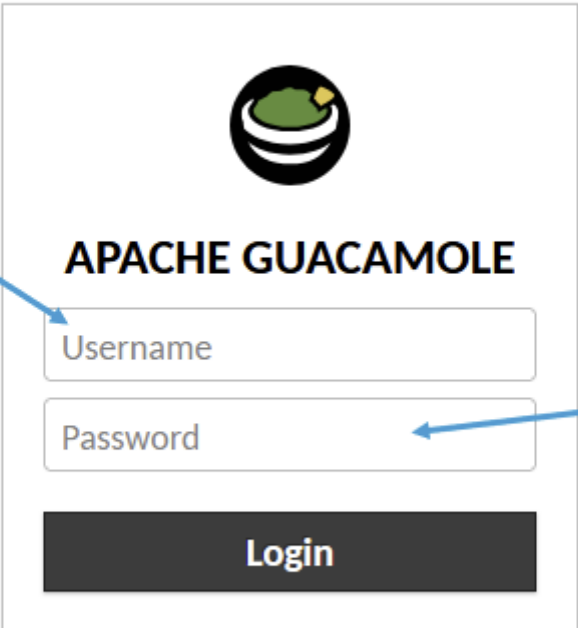

- [Guacamole RDP](#)

# Guacamole RDP

## Step 1: Go to the Guacamole Website

This should be provided by your System Administrator via email.

## Step 2: Log into Guacamole with your given credentials

The image shows a login form for Apache Guacamole. At the top is the Apache Guacamole logo, which is a black circle containing a green chili pepper. Below the logo is the text "APACHE GUACAMOLE" in bold. Underneath is a "Username" input field, followed by a "Password" input field. At the bottom is a dark grey "Login" button. Two blue arrows point to the "Username" and "Password" fields respectively.

## Step 3: Log in with your work PC credentials
