

Guacamole RDP

Step 1: Go to the Guacamole Website

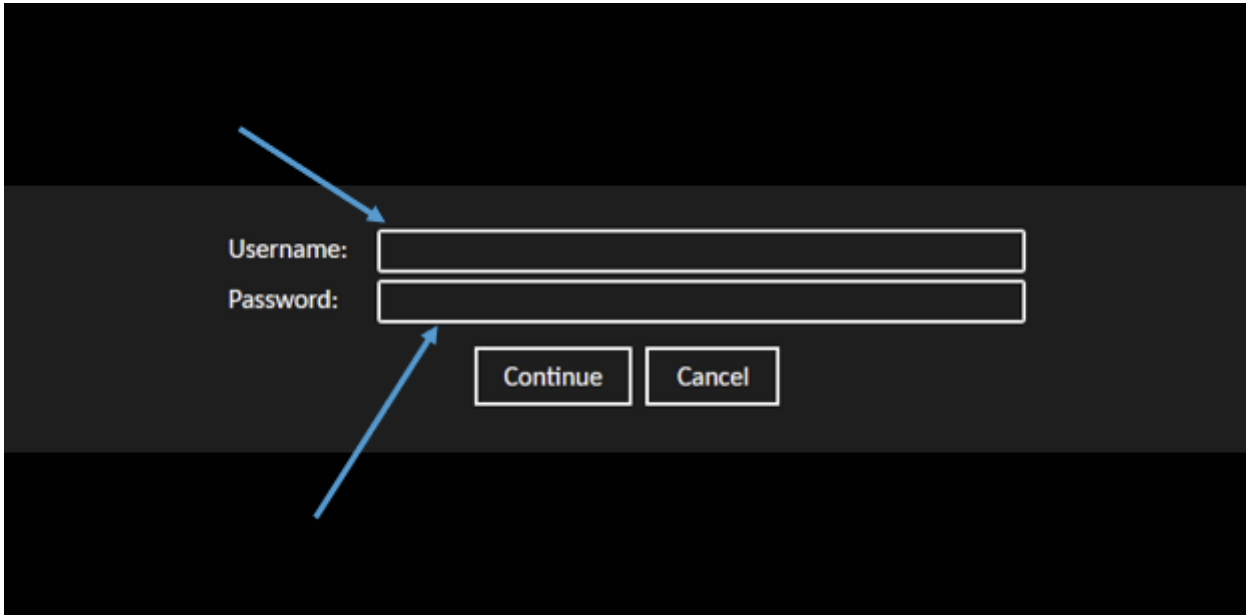

This should be provided by your System Administrator via email.

Step 2: Log into Guacamole with your given credentials

The image shows the Apache Guacamole login interface. At the top is the Guacamole logo, a black circle containing a green bowl with a yellow spoon. Below the logo is the text "APACHE GUACAMOLE" in bold. Underneath are two input fields: "Username" and "Password". A blue arrow points from the left to the "Username" field, and another blue arrow points from the right to the "Password" field. Below these fields is a dark grey button with the word "Login" in white text.

Step 3: Log in with your work PC credentials
